“Try Your Luck at Fenway Park on Friday, November 4th at 7pm”

The Jett Foundation’s 2nd annual charity fundraiser at Fenway is sure to stand above the rest as we bring together the community leaders of Boston along with Boston’s social, sporting and business elite under one roof to enjoy a different type of game at Fenway Park.

Nestled in the EMC Club, each guest will receive “play” money and try their luck “playing the tables” of black jack, poker, roulette craps and more - all while sharing a spectacular view of Fenway Park surrounded by friends and colleagues.

All proceeds from this event will support the **Jett Program for Pediatric Neuromuscular Disorders at Massachusetts General Hospital for Children** offering the only coordinated care for children with neuromuscular disorders in New England. Launched by the Jett Foundation in 2007 and headed by the world’s leading expert on Duchenne, Dr. Brian Tseng, the clinic provides the groundwork for urgently needed research and life saving clinical trials.

“We chose the Vegas theme for this event for a reason,” said Christine McSherry, whose son is the namesake for the Jett Foundation. “Unfortunately, the odds of your child being diagnosed with Duchenne are much higher than many games of chance we will play at this event.”

“Having this event at Fenway means a lot to us,” said Brian Stys, President of Stys Hospitality Initiative and Event Co-Chair of Vegas Night. “Boys with Duchenne lack the muscle strength to participate in sports and Fenway epitomizes muscle strength and ability. Together we can move mountains to save the lives of these boys affected by Duchenne Muscular Dystrophy.”

This event is open to the public. To purchase tickets or to learn more, please visit www.jettfoundation.org.

The Jett Foundation, based in Kingston, MA, is a non-profit organization dedicated to increasing worldwide awareness of Duchenne Muscular Dystrophy with the purpose of raising and appropriating funds for research to realize a cure. In the past ten years, the Jett Foundation has funded promising research totaling \$2 million, established a state-of-the-art multi-disciplinary neuromuscular clinic, provided children with adaptive sports programs and is known throughout the country as a leader and strong advocate in this battle against Duchenne.

The Jett Foundation is a 501(c) 3 Non-Profit Organization - Federal Tax ID # 04-3563445
